

Approach to *Sichtweiten*

Coming from Achern:

In Seebach, take the first option (in front of the town hall) to the left in the direction of Grimmerswald / Silbergründle.

Follow the course of the road steadily upwards, past the entrance to the Silbergründle, to the entrance to Grimmerswald.

Here you take the first possibility after the entrance sign to the right.

Turn right here

Here, too, follow the course of the road steadily upwards - always following the Busterbach sign.

Pass the driveway to the Fischerhof, continue to follow the road.

Keep left here and continue uphill.

At the end of the street you will come to a T-junction. Most navigation devices show the way via the neighboring courtyard. **That is 5 m too early**, before the actual T-junction.

Please do not drive through please the neighboring yard. THANKS !!! please be so kind and follow the red sign "Sicht Weiten". Please turn left here and continue uphill.

Now you're almost there. In the following left bend in the forest, turn left down to our farm.

Now turn left down here - to our farm.

Now you've made it and can park your car on the left-hand side.

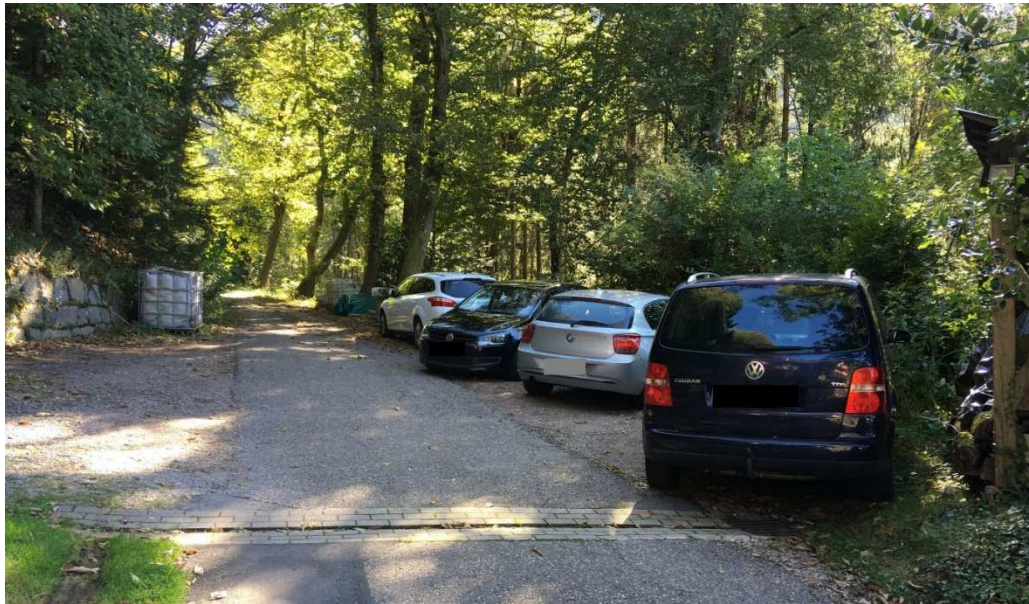

Here you can park on the left.

To load or unload, you can also drive to the front of the apartment at any time, after which the courtyard passage must be cleared again. Thanks very much.

Our parking area offers relaxed space for 3-4 vehicles. To do this, however, you have to park at an angle (fishbone-like). Depending on the vehicle size, 5 vehicles of this type also fit on the floor space. However, we would appreciate it if not every guest came with their own vehicle.

Example parking:

If you come with more than 3 vehicles, this type of parking (fishbone) is the best option.

Depending on the size of your vehicles, also following parking variant is possible (up to 3 vehicles):
